Collagen chew

These tasty chews are made from 100% collagen.

The collagen comes from South American grazing animals. It is hydrolysed and broken down into more easily digestible molecules by heating. It is then moulded and baked. This gives it a bread-like structure. Finally, it is coated with beef or chicken.

Hydrolysed collagen is said to have a positive effect on the joint apparatus. It is said to support the formation of joint cartilage and promote healthy skin.

Freeze-dried chews

What is freeze-drying?

The meat is first frozen. A vacuum is then created to gently transfer the water from the frozen to the gaseous state (sublimation). The water evaporates.

This is a very complex procedure.

What are the advantages?

Nutrients, vitamins and minerals are retained. The flavour and taste also remain unchanged. Freeze-dried meat therefore tastes just like fresh. The pores remain open. This is why freeze-dried chews reabsorb water very quickly. The treats can therefore be enjoyed dry or briefly placed in water before eating.

Our freeze-dried products are produced exclusively in Germany. The meat comes from Germany and other EU countries. Lean meat is used. The salmon has a high proportion of healthy fats. We offer the freeze-dried products in tins.

Coconut articles

Dog owners have long used coconut-derived products for the health of their pets

The coconuts come from Sri Lanka and the Philippines. No monkeys are used in the harvest here.

- ✓ Coconut is used against worms, also prophylactically. Coconut oil is particularly suitable for this purpose.
- ✓ Applied externally, coconut oil protects against parasites such as ticks and fleas.
- ✓ Coconut oil is also popular for paw care, especially for cracked and brittle pads and after a winter walk when the paws are irritated by salt.
- ✓ And - as a 2012 study by the Athlone Institute of Technology found out: Coconut oil is effective against bacteria that cause tooth decay. The great thing is that the good bacteria in the mouth and throat are not harmed, so the healthy oral flora is preserved.

Chew sticks / chew toy with coconut fibre

- ✓ 100% sustainable! Use of "waste" wood
- ✓ Size (length and thickness) may vary
- ✓ Which size is suitable for which dog? This depends on the biting force and size of the dog. Ideally, the chew should not be able to be taken between the back molars. The following table is a guide. If in doubt, choose a size larger. If the dog bites through the chew stick, take it away immediately, otherwise it could injure itself. Pass this information on to your customers.

Chewing sticks

Catfish

African catfish from German breeding.
A very special dog snack.

Not wild caught, but bred

- ✓ Breeding in aquacultures in Germany avoids wild-caught fish.
- ✓ No medicines, for example antibiotics, are used in breeding.
- ✓ Local farming avoids long transport routes; the fish is always fresh.

African catfish:

- ✓ An extremely tasty and healthy chew for the gourmets among dogs.
- ✓ High proportion of omega-3 fatty acids
- ✓ Very pleasant odour as a chew.
- ✓ Natural chew gently dried at 70 degrees.

General Terms and Conditions

Our offers are subject to change. We reserve the right to prior sale. Our deliveries are subject to our terms of delivery and payment. The prices listed in the article list are exclusive of statutory VAT and delivery costs/freight charges.

As a rule, we do not sell to end customers. Please note that in the case of a bilateral commercial purchase (you and we are merchants), the cancellation of concluded sales contracts is generally not possible.

We shall not be responsible for delays in delivery, even if binding deadlines have been agreed.

Deliveries on a specific date and/or at a specific time are only possible with DHL Express delivery. Should you require this, please contact us in advance to enquire about the costs.

Our obligation to perform is limited to the stock of goods of the same type and designation available in our warehouse. There is no obligation to procure beyond this.

Delivered goods must always be accepted, even if they are defective. In the event of transport damage, make sure that the deliverer notes on his scanner that the parcel is damaged. Do not sign until this note has been made. Please notify us immediately. Please observe § 373 HGB, as well as § 377 HGB (commercial obligation to give notice of defects). The goods must be kept ready until the further procedure has been clarified, see also § 379 HGB, which regulates the temporary safe storage of the goods by the buyer. Returns are organised by us. **We shall not assume any costs for unsolicited returns or refusals to accept goods.** Goods returned freight collect will not be accepted by us.

Please note that the parcel services are not liable for the loss of parcels if a drop-off authorisation has been issued. In this case, any losses shall be borne by the customer.

Deductions from the invoice amount are not permitted without a credit note.

Chargeback fees shall be borne by the buyer. Incorrectly debited amounts will be refunded after consultation.

The goods shall remain the property of the seller until all claims have been fulfilled, even in the case of resale. If the buyer defaults on payment or if circumstances arise or if the seller subsequently becomes aware of circumstances which significantly reduce the creditworthiness of the buyer, in particular suspension of payment, bankruptcy or composition application, seizure by way of execution, etc., the buyer must return the reserved goods to us. The goods subject to retention of title may not be handed over to others by the buyer. The purchaser is obliged to keep the goods subject to retention of title and the receivables free from access by his creditors at his own expense and to protect them from impairment by third parties and to notify us immediately in writing of any imminent or actual enforcement measures, etc.

The seller shall only be liable for damages for whatever reason if he, his legal representative or his vicarious agent has caused the damages wilfully or through gross negligence.

With regard to the sales packaging that we fill with goods for the first time and deliver to private end consumers, our company has joined the nationwide take-back system of Usepac UG, Bremen, licence number: UP-8708, to ensure compliance with our legal obligations under Section 6 VerpackV. Our provisional registration number with the central packaging register office is DE5076619557981.

In accordance with Art. 4 No. 11 GDPR, we must obtain the customer's consent to pass on their email address and/or telephone number to the parcel delivery services or shipping companies. By placing an order with us, you consent to the disclosure of this data. If you do not agree to the disclosure, please inform us by email to post@bluefish-kauartikel.de.

Here you will find information on data protection:
